Work experience

Full Stack Developer Intern

From October 2023 to February 2024

I Tech Company, Addis Ababa

- Contributed to the development of web applications using React for the front-end and Node.js for the back-end.
- Assisted in the integration of RESTful APIs with the front-end interface.
- Collaborated with the development team on code reviews and debugging.
- Gained hands-on experience with version control using Git and deployment with Docker.

ICT Intern

From June 2022 to October 2022

Woldiya University , Woldia

My internship experience at Woldia University ICT Directorate provided me with hands-on experience in maintaining electronic devices, installing networks. I was able to successfully solve hardware and software problems, contribute to the repair and utilization of damaged devices.

Projects

Final Year Project : Share Management System

During my final year of studies, I undertook a comprehensive project to develop a Share Management System for a company. The system was developed by a team using Nextjs for the frontend, Nodejs for the backend, and MongoDB for the database. It was designed to digitalize day-to-day operations, including trading shares, managing shareholder information, and keeping track of shareholders and share data.

YouTube Home Page Clone, Frontend
